## A THING OF THE PAST.

The Last of the Volunteer Regiments Paid Off and Mustered Out of Service at San Francisco.

San Francisco, July 1.—Two important military events occurred at Presidio Sunday. The retirement of Maj. Gen. W. H. Shafter and the mustering out of four volunteer regiments. Gen. Shafter went to the retired list at noon, when he formally transferred the command of the department of California to Maj. Gen. S. M. B. Young. In the afternoon the 4th, 4th, 4th and 38th volunteer regiments were mustered out. The mustering out of the four regiments required the services of eight paymasters. Over one million dollars was disbursed. The money was taken from the sub-treasury to the Presidio in eight delivery wagons, each under the charge of a paymaster and his clerk. Forty-five artillerymen, mounted and armed, escorted the treasure and pay corps to the reservation. In order to protect the soldiers on the ground, from graters, with their swiveling devices, 100 men of Troop F, 15th cavalry, were stationed around the reservation.

Two of the regiments mustered out, the 4th and 4th, were colored, and the men had between three and four months' pay due them. As soon as the volunteers had been mustered out, they rushed to the railroad ticket office for transportation to their eastern homes. Both the Santa Fe and Southern Pacific general ticket offices put on extra forces of clerks. The ticket offices were crowded with soldiers, and night with discharged volunteers buying tickets. Nearly 4,000 tickets were issued.

During the day an accidental shooting, which may have a fatal ending, occurred. George Price, colored, of Kentucky, Company G, 48th regiment, accompanied by John Rogers, of the same company, went into the store of Hiren Bros. to buy a revolver. Price told the clerk he wanted a gun like the one Rogers carried. With this Rogers handed his gun to the clerk without warning that it was loaded. While the clerk was examining the pistol it was discharged. The bullet entered Price's abdomen, inflicting a wound that may result fatally.

There yet remains three volunteer regiments to be discharged. They are the 47th and 41st. They will be paid off Monday. The volunteer army will then have passed into history.

## FIERCE STRUGGLE ON.

Union Employees of the American Sheet Steel Co. Strike.

President Shafter, of the Amalgamated Association, Says It Will Be a Fight to the Death and One to Be Remembered.

Pittsburgh, Pa., July 1.—President J. T. Shafter, of the Amalgamated Association of Iron, Steel and Tin Workers, issued an order calling out all union employees of the various mills of the American Sheet Steel Co., known as the hoop trust. It is estimated that 15,000 men are subject to the call, which, in connection with the big strike of the American Sheet Steel Co., ordered by President Shafter Saturday, will affect 50,000 men. President Shafter said Sunday night: "The impression that only the mills of the American Sheet Steel Co. are affected by the decision of Saturday is a mistake. The workers of all mills in the American Sheet Steel Co. are interested, and will be officially notified Monday morning that the scale has been signed, and that the workers of all mills in the American Sheet Steel Co. will not be necessary, as the men will have watched the situation carefully, but what is known as open mills, where union men have been allowed to work side by side with the non-union men, is where we have to move. Union men must walk out of these open mills in the hoop trust.

"The open mills to be notified are one at Holliston, Pa., three at Pittsburgh, and one at Monessen. The organized mills which will close on our call are the upper and lower mill at Youngstown, O., Pomeroy, O., Sharon, Pa., Warren, Pa., Greenville, Pa. This I believe, will bring the number of men affected up to 50,000.

"It is a matter of regret that the issue has been forced, but I now look as though it will be a fight to the death," continued Mr. Shafter. "The Amalgamated association is not unprepared for it. We have not had a general strike for many years, and in the time we have not been idle. We have funds, and will use them. Right here, I want to correct an impression which has been given out that no benefits will be paid strikers 30 cents to the nearest of them. The Amalgamated association will begin at once to take care of its people."

### THE MINERS' STRIKE.

President of the Union at Thacker, W. Va., and Nine Others Placed Under Arrest.

Thacker, W. Va., July 1.—Charles Burke, ringleader of the striking miners and president of the local union of United Mine Workers of America, was arrested on Sunday by Deputy United States Marshal Hurlford and Detective K. J. W. Smith. The nine strikers arrested were taken to Parkersburg on Sunday afternoon train to appear before Judge Jackson for tearing down the notices of injunction granted by Judge Jackson. The nine strikers arrested were: Nelson Daniels, Sam Daniels, Ballard Smith, Chas. Smith, Andy Blackburn, Richard Reynolds, Ed Dalton, Sam Bitter and Chas. Worthington. They were all brought to this place, and are under heavy guard, waiting for a train to take them before a Kentucky judge, who will remand them to the jail at Williamson to await action of the Kentucky courts. These arrests have virtually broken the backbone of the strike.

During the night Detective T. L. Folts, assisted by John Justice, deputy United States marshal, and a posse of six men, went to Kentucky to break up the strike. The following nine strikers, who have been terrorizing the miners on the West Virginia side for the past ten days by shooting at all who could not give up the strike, were taken to Parkersburg and repudged along the railroad: Nelson Daniels, Sam Daniels, Ballard Smith, Chas. Smith, Andy Blackburn, Richard Reynolds, Ed Dalton, Sam Bitter and Chas. Worthington. They were all brought to this place, and are under heavy guard, waiting for a train to take them before a Kentucky judge, who will remand them to the jail at Williamson to await action of the Kentucky courts. These arrests have virtually broken the backbone of the strike.

## BUREAU OF STANDARDIZATION.

In Which Absolute Accuracy of Weights and Measures Will Be Secured.

A million and a quarter of dollars has been recently appropriated for the establishment of a national bureau of standards for this government, and the work of designing a remarkable building for this new feature of the government service will be commenced at once, says the Patent record of Washington. This is a marvelous structure. It will be a place where the noises and vibrations of the outside world will not be admitted under any pretense, and an absolute unvarying temperature will prevail. It will be erected on a site to be selected some distance from the city, where there will be the least possibility of the disturbing influences from the outside world, and on a lot large enough to prevent the possibility of any other building within a distance of a quarter of a mile. There will be double walls, each on a separate foundation resting on the solid rock. The building, which will contain the power plant necessary for the operation of this novel department, will be located at least a thousand yards away. All these precautions are taken in the battle with the vulgar influences of the outside world. Many of the instruments will be placed so that it is impossible for any one to approach them within a distance of 20 or 30 feet. This is to prevent the temperature of the body from affecting their delicate constitution. The windows will be fitted so that it will be readily possible to make the rooms absolutely dark, even on the brightest days. No particle of sunshine will penetrate the shutters.

There will be maintained in this building a standard of all measures of capacity and distance. Other things of the same department will establish a standard electric light measuring standard volts and amperes means of testing all thermometers.

### Carried Off the Mugs.

At the recent Commers, at Bonn, in honor of the German crown prince, at which the Kaiser was present, an unpleasant incident arose. The guests thought that the beer mugs were keepalves, and carried off 650 of them. The "Borussia" corps, which acted as host, instead of settling for the mugs, asked the guests who carried them away either to return them or to send 30 cents to the proprietor of the restaurant where the Commers was held.
